

Love your hands, we do™

May 2008

Marigold Industrial® releases latest newsletter.

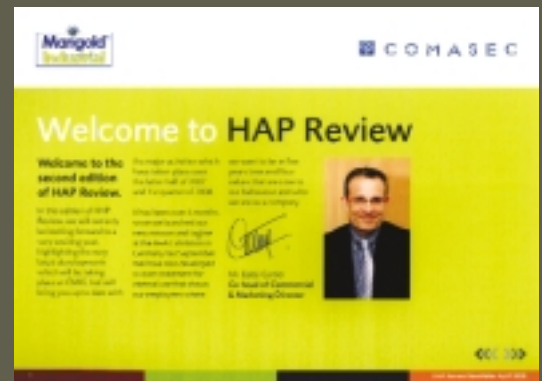

The latest version of the Marigold Industrial newsletter titled HAP Review, produced by CMIG – the parent company of the Marigold Industrial and Comasec brands - has been released to provide the latest news and information from the hand protection experts.

Available exclusively on its website – marigold-industrial.com - the latest version of HAP Review blends product information with the latest news and developments taking place at CMIG, providing an invaluable resource for anyone responsible for health and safety in the workplace.

The latest edition of the company newsletter highlights the launch of Marigold Industrial's new website in addition to the development of its new Chemical Permeation Chart. Other content includes an update on the development of CMIG's unique Grip and Comfort ratings for its gloves and an overview of its fast expanding manufacturing plant in Portugal.

"For anyone with responsibility for health and safety, HAP Review provides an essential source of information giving a mix of company and product news, and an overview of the latest educational resources that we have produced to make identifying and selecting the right glove for the job as simple as possible," said CMIG's International Marketing Manager Donald Gillespie.

"We have a great deal to talk about in this edition of HAP Review – both in terms of products and core tools such as the launch of our new website and the development of our latest Chemical Permeation Chart," added Mr. Gillespie.
