Marigold Industrial® expands Nitrotough™ Range

Exhibitor: Marigold Industrial Ltd

Stand No: 68

Event: Health + Safety 09, Sandown Park – 24/25 February 2009

Hand protection expert Marigold Industrial® has expanded its already highly popular Nitrotough™ range with the launch of the new N1000 Series.

The four-glove range - making its debut at Health + Safety 09, consists of the N1200, N1300, N1500 & N1700 - is ideally suited for general handling applications in sectors such as construction, engineering, manufacturing, assembly, mechanical industries. It is also food compliant for applications not involving fatty or acidic foods.

Key features of the glove include excellent levels of abrasion resistance and good tear resistance. In addition, the new range provides the wearer with excellent flexibility and dexterity and comfort thanks to the 13 gauge seamless nylon liner.

With the option of a smooth and rough nitrile coating finish and palm or fully dipped, the N1000 Series, which is available in sizes 7 to 10, provides extremely flexible hand protection where general tasks are being undertaken.

In addition, the new range has also achieved the Oeko-Tex 100 classification guaranteeing that the textiles used in the manufacture of the new gloves are carcinogen free are tested against pesticides and phenol chlorine, contain no heavy metals, have little or no formaldehyde, have a neutral pH and are accelerator free with no added biocides.
